COTTON & SILK

Un'idea di abbigliamento uomo, contraddistinta da qualità, stile e gusto, presenta una serie di capi pensati e realizzati con cura e dedizione.

iPsicologico

Native App iOS / Native App Android / Web

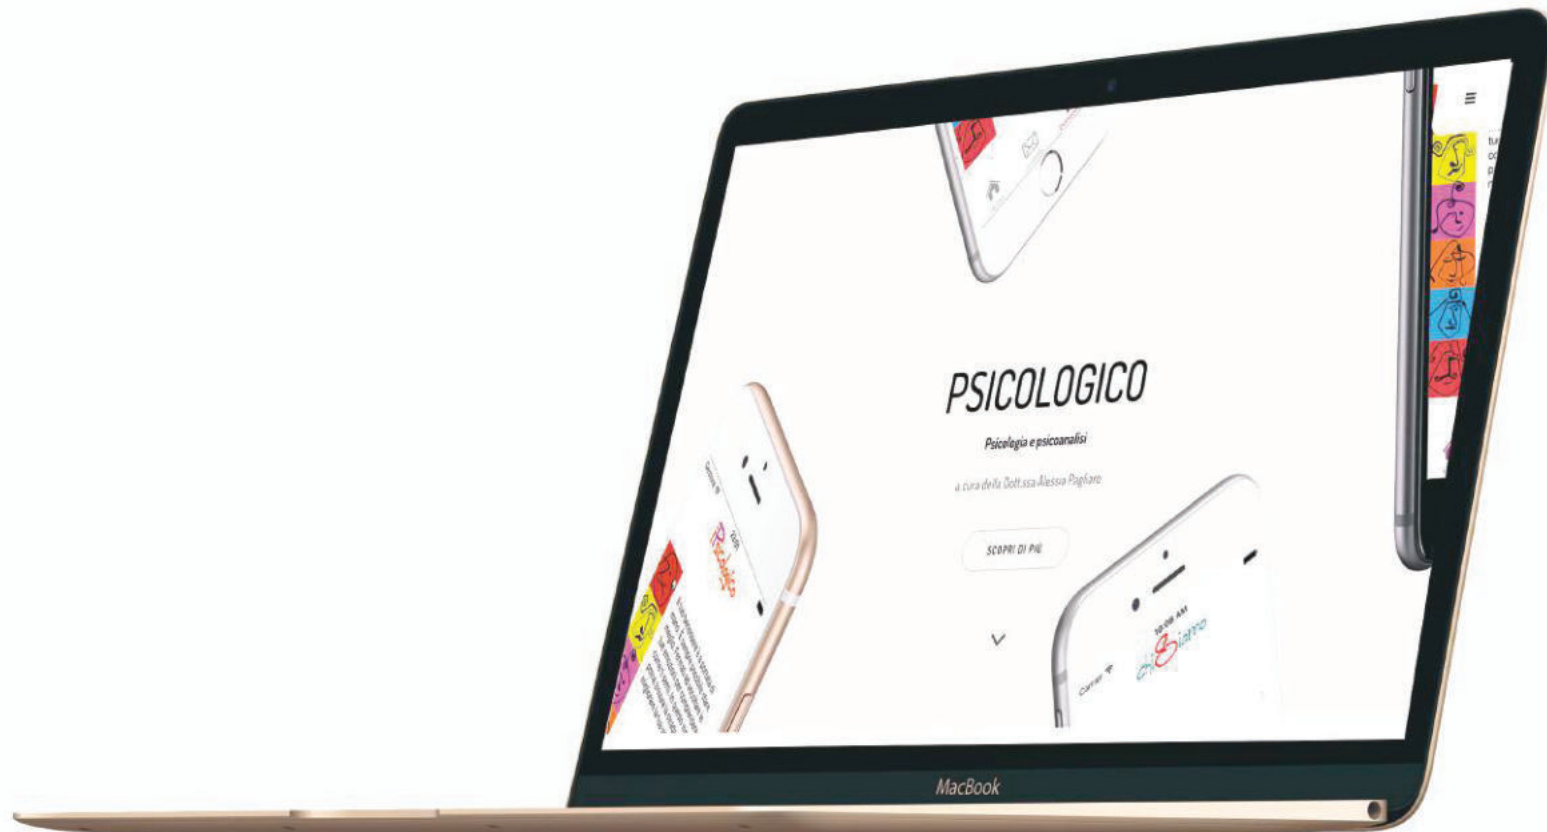

This site was born from the idea of proposing a psychological thought, to create the possibility of bringing everyone closer to himself, to his own needs and desires and, consequently, to the other. The tools used are Psychology and Psychoanalysis.

It is an in-depth work of analysis of the difficulties and symptoms that can allow a lasting change of the person with a greater psychic balance.

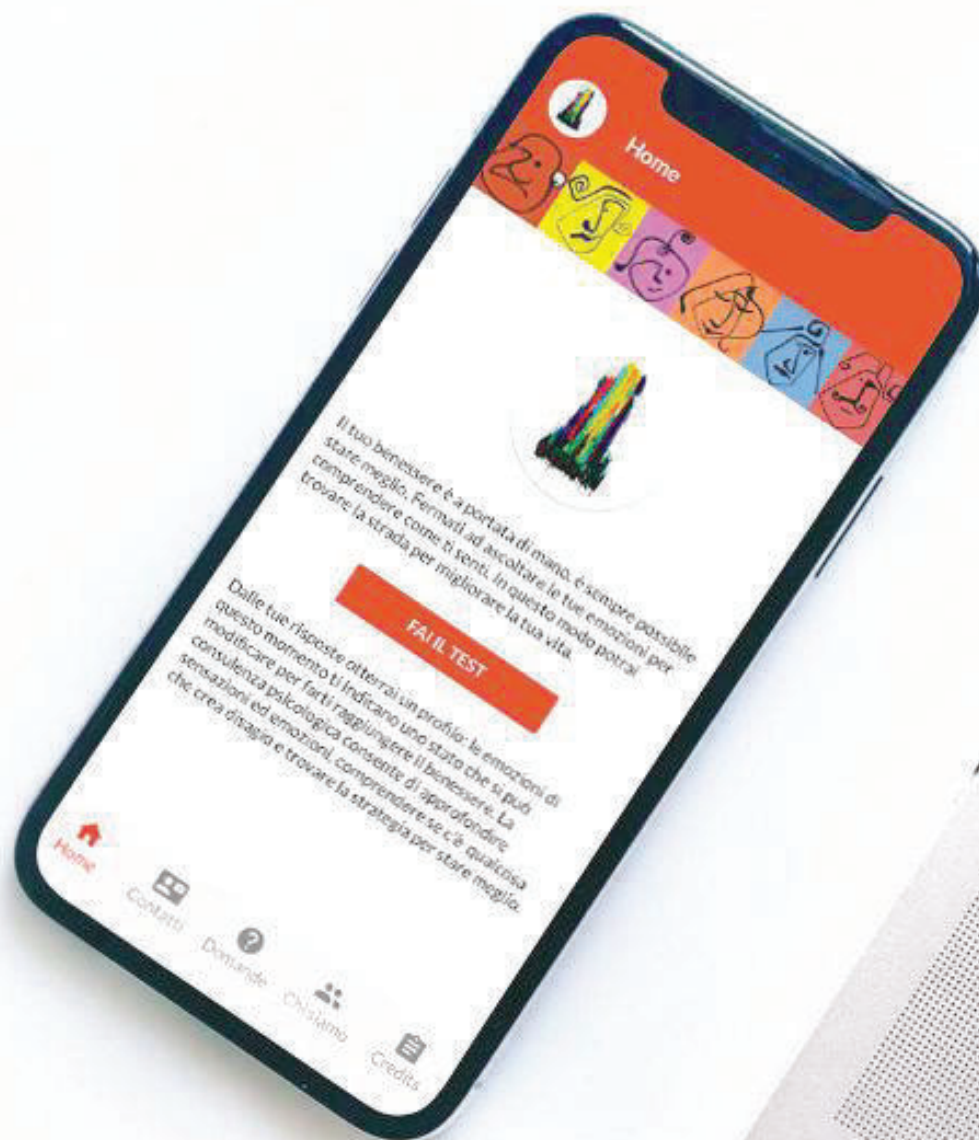

Psychological counseling on your smartphone

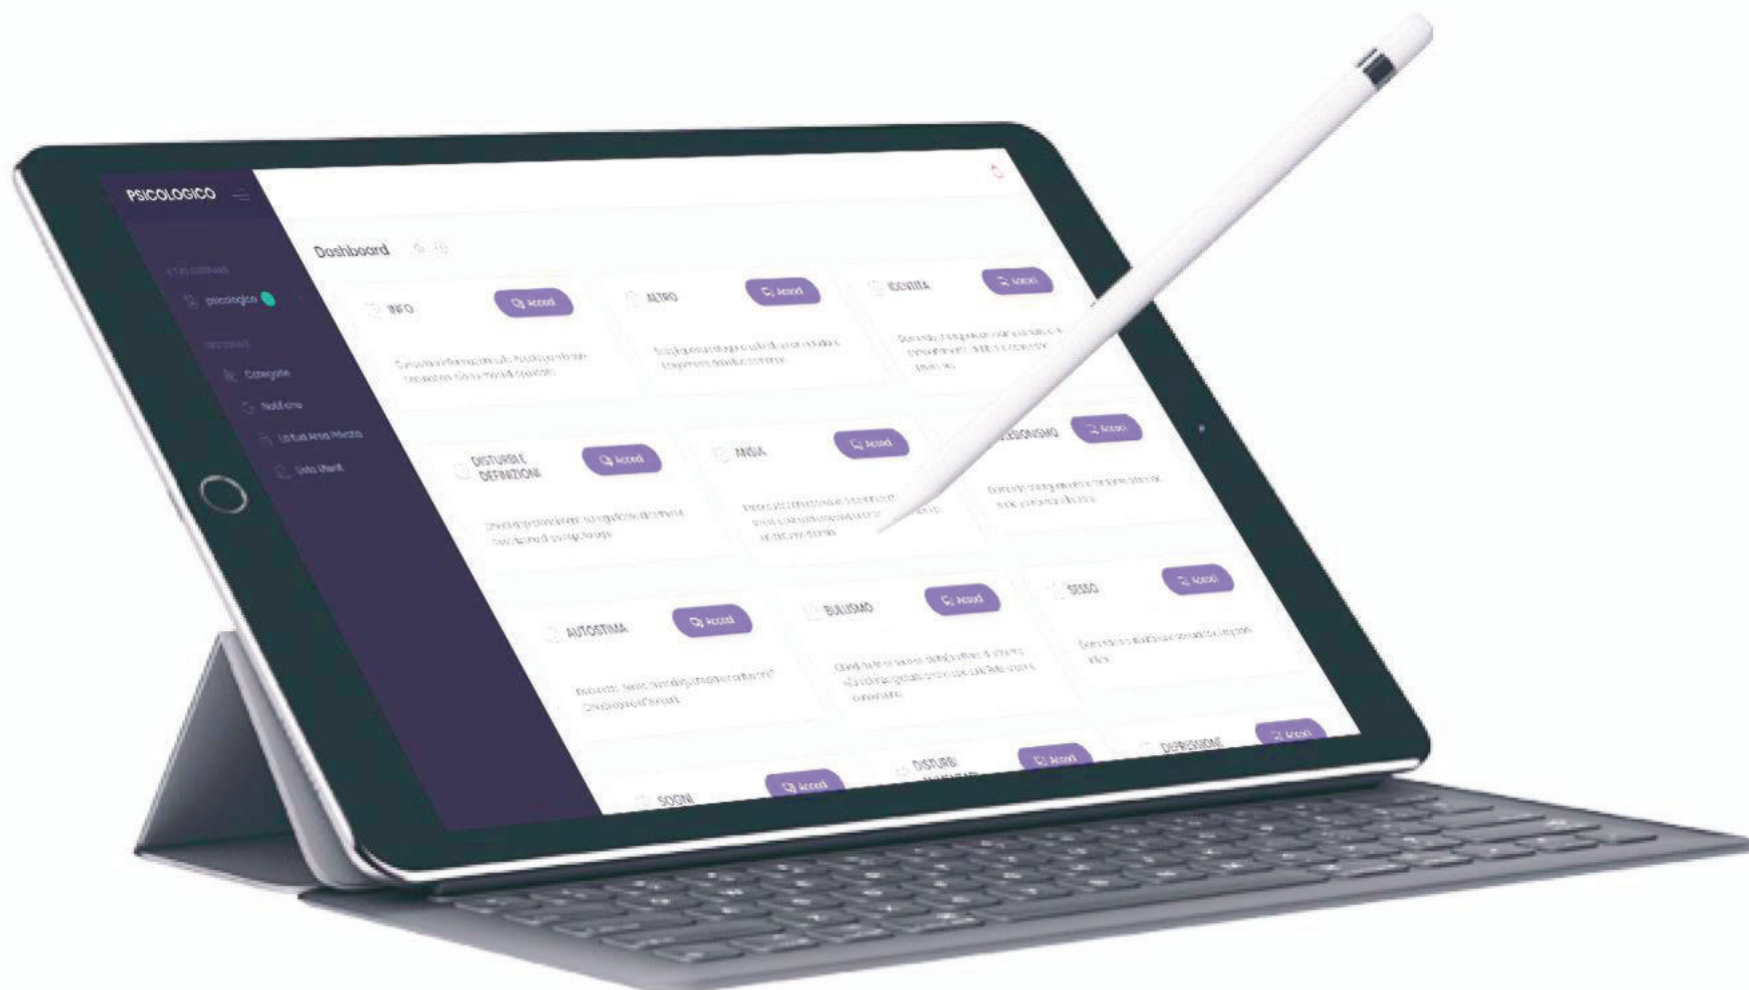

Available on App Store and Play Store

Institutional website, with design responsive

Pocket World

Native App iOS / Native App Android / Web

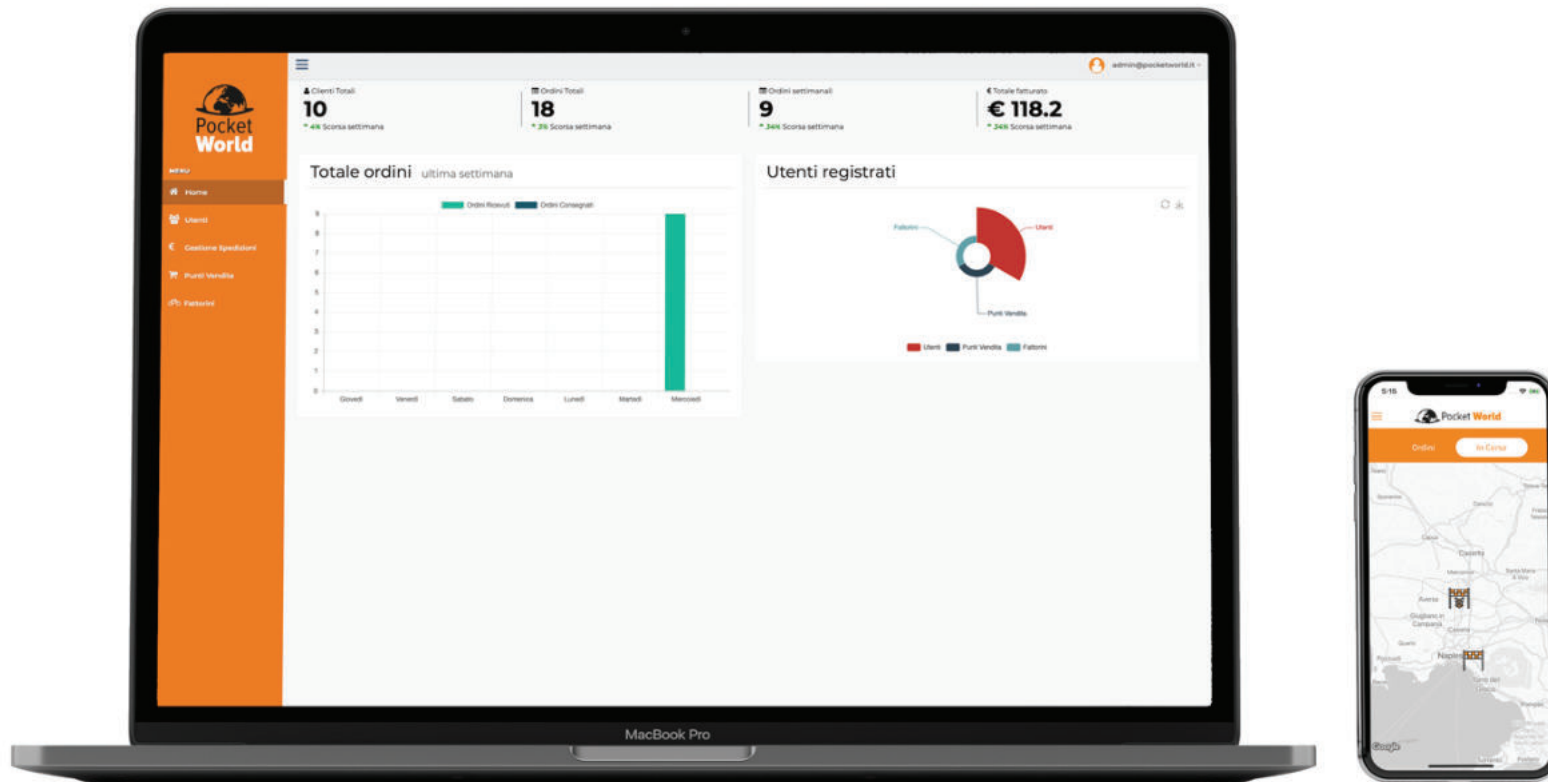

Native mobile application for Android and iOS that lets you place orders and track the dispatch of the deliveryman in real time on the map with appropriate status notifications.

Pocket World is the answer to the needs of consumers to buy from the comfort of their home and shopkeepers to sell any product by taking advantage of the home delivery of our network.

Something new is moving in the city

Available on App Store and Play Store

**Native App iOS & Android
Backend with CodeIgniter**

Native App iOS & Android

GemAR

Native App iOS / Native App Android

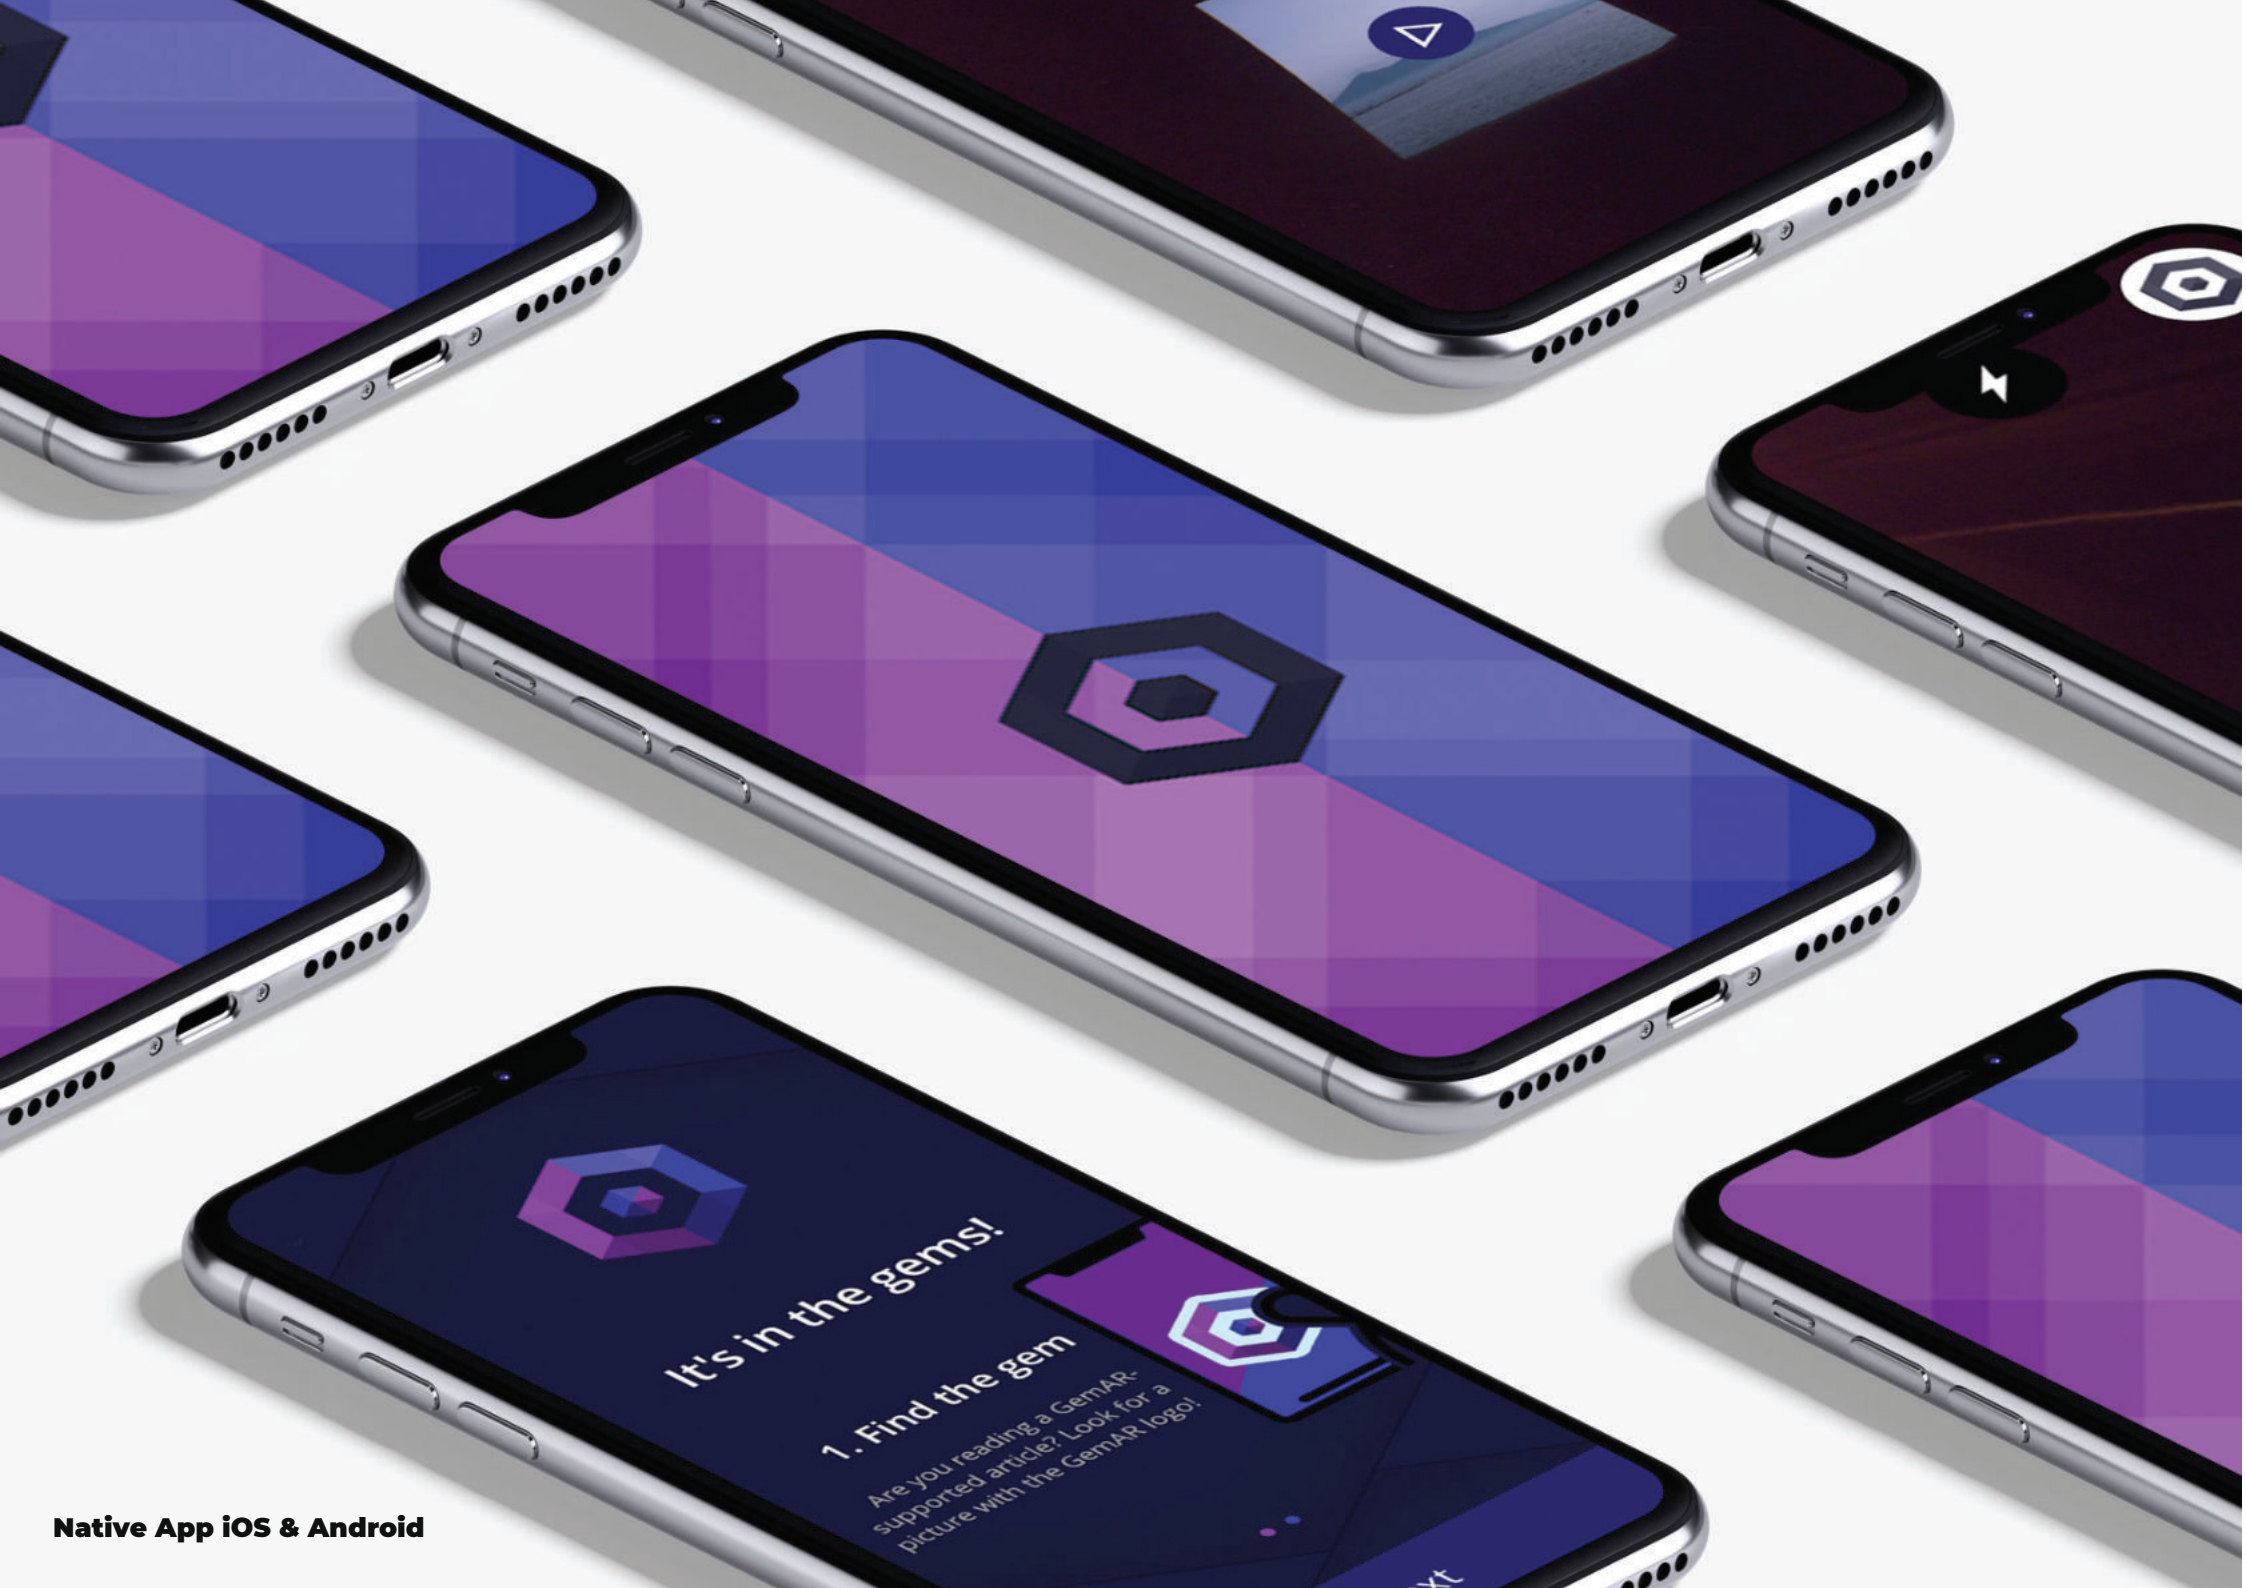

PARTNER Phycon

Native mobile application in Android and iOS that thanks to the use of augmented reality makes the surrounding environment more fun and colorful.

Its main technology is based on the recognition of images and their transformation into detailed videos to teach, promote and explain.

Wait, it's a gem ... Gemar?
Available on App Store and Play Store

Native App iOS & Android

Lat Lit Vieta

Native App iOS / Native App Android

PARTNER Phycon

Native mobile application in Android and iOS that allows the use of GPS to display points of interest, located in Latvia and Lithuania, with the aim of collecting points. The application has been implemented with dynamic multi-language support.

The operation concerns the proximity of the user with respect to a certain distance from the point of interest that causes the display of a notification which allows the enabling of the camera to take pictures.

Discover Latvia and Lithuania

Available on the App Store and Play Store

Native App iOS & Android

Biglietto Elettronico

Native App iOS / Native App Android

PARTNER Tpr

Native mobile application for Android tablets that allows the driver of transport vehicles to complete the delivery of a ticket.

The provision of a ticket has never been easier, automatically calculating the rate based on the area.

The digital ticket for every driver
